

ELECTROACOUSTIC FAIR

**A theme park of sound featuring a day of events
involving sound and technology**

**Saturday 13 November 2010
10am – 9.30pm**

MacRobert Building

University of Aberdeen, King Street, Aberdeen, AB24 5UA

For one day the MacRobert Building will be turned into a hive of interactivity with performances, workshops, demos and sonic "rides" for everyone to take part in. The whole programme of activities is available on **sound** website on www.sound-scotland.co.uk

During the day there will be two workshops for which advance booking is required:

Dirty Electronics Workshop (10am – 12noon; performance at 2pm)

Participate in a hands-on DIY electronic musical instrument-building workshop with MTI's Dr Noise, John Richards, who runs MTI's Dirty Electronic Ensemble. No previous experience required but you'll need to be able to attend both the workshop and the performance, which will be projected over the 60+ BEAST loudspeaker system

Treasure Hunt (3pm with performance at 3.45pm)

Participants will record sounds prior to the workshop, send them in to **sound** and then create a group piece on the day working with Duncan Chapman and *Soundplant* software. Instructions on how/what to record prior to the workshop will be sent following receipt of participation form.

Ticket Prices: All day ticket £5, Family ticket £15 (2 adults and 2 children)
Group rates available – email info@sound-scotland.co.uk
